

CZR TOKEN LITEPAPER

THE TOKEN POWERING THE CZR ECOSYSTEM

BUILT FOR TRADERS. DESIGNED FOR UTILITY
ACROSS THE CZR ECOSYSTEM.

Version: 1.0 — Final Public Version

Issuer: **CZR FNDN LTD.**

Issuer Jurisdiction: **British Virgin Islands**

Publication Date: **September 25, 2026**

Planned Launch Date: **October 1, 2026**

IMPORTANT NOTICE

- This Litepaper provides a condensed, trader-focused overview of the CZR token and should be read together with the complete CZR Token Whitepaper.
- The full Whitepaper contains expanded information regarding tokenomics, utility, vesting, token releases, treasury management, smart-contract controls, custody, conflicts of interest, risks, eligibility restrictions, and legal disclosures. If this Litepaper conflicts with the latest official Whitepaper or binding program terms, the Whitepaper or applicable binding terms will control.
- CZR is intended as a utility token. It does not represent equity, ownership, debt, profit-sharing rights, revenue-sharing rights, guaranteed rewards, or a guaranteed return. Digital assets involve substantial risk and may lose some or all of their value.
- CZR availability and functionality may vary by jurisdiction. The authorized CZR offering and related distribution programs are not available to persons in the United States, the United Kingdom, member states of the European Union, or any other prohibited jurisdiction.
- Nothing in this Litepaper guarantees any future feature, listing, integration, product, reward, liquidity level, market value, or implementation date.

CZR AT A GLANCE

ATTRIBUTE

INFORMATION

Token Name	CZR
Token Symbol	CZR
Issuer	CZR Fndn Ltd.
Jurisdiction	British Virgin Islands
Network	Ethereum
Standard	ERC-20
Contract Address	0xfeD863B6A995BE69c2BBc5089BcDa5414793CE24
Maximum Supply	1,000,000,000 CZR
Current Total Supply	1,000,000,000 CZR
Reference Launch Price	\$0.025 per CZR
Reference Fully Diluted Valuation	\$25,000,000
Expected Initial Liquidity Supply	Up to 5,000,000 CZR
Expected Initial Liquidity Percentage	Up to 0.50%
Initial Trading Venue	CZR Exchange
Initial Trading Pair	CZR/USDT
Planned Launch Date	October 1, 2026
Website	https://czrtoken.com
Administrative Contact	admin@czrtoken.com
User Support	support@czrtoken.com

SUPPLY HEADLINE

MAXIMUM SUPPLY

1,000,000,000 CZR

The CZR smart contract has an immutable maximum-supply cap of 1,000,000,000 CZR. The full maximum supply has been minted, and the contract prevents total supply from exceeding the cap.

Up to 5,000,000 CZR, representing up to 0.50% of maximum supply.

- At the reference launch price of \$0.025, 5,000,000 CZR represents up to \$125,000 in reference liquidity value.

This is not a guaranteed circulating-supply figure, market capitalization, trading volume, liquidity depth, or valuation. Actual circulating supply will depend on transfers, restrictions, liquidity deployment, airdrop distribution, and public-market availability.

WHAT IS CZR?

CZR is the ecosystem utility token supporting CZR Exchange, CZR Wallet, CZR Launchpad, the existing CZR Card, and other approved CZR products and services.

PLANNED AND POTENTIAL UTILITY INCLUDES

Trading-fee discounts and rebates

VIP and membership benefits

CZR Earn and ecosystem rewards

Referral incentives and trading campaigns

CZR Launchpad access

CZR Card rewards and rebates

Community rewards and partner benefits

Ecosystem participation

Approved treasury and token-supply programs

Features may depend on location, account status, eligibility, technical readiness, provider support, market conditions, and separate program terms.

DESIGNED FOR TRADERS

CZR is designed to connect trading activity with benefits across the CZR ecosystem.

TRADING-FEE BENEFITS

Eligible holders may receive fee discounts or rebates on supported CZR Exchange products. Qualification may depend on CZR balances, eligible commitments, trading volume, account level, VIP membership, or promotional requirements.

VIP BENEFITS

Eligible CZR holders may receive access to selected VIP levels, priority support, events, partner benefits, referral rewards, early product access, or other qualifying benefits.

TRADING AND COMMUNITY REWARDS

CZR may be used in approved trading campaigns, loyalty programs, referrals, community missions, airdrops, and other reward programs.

CZR EARN

Eligible users may commit CZR to flexible or fixed-term CZR Earn products. Final reward rates, funding sources, limits, supported regions, and eligibility requirements will be announced before each product launches. No yield or return is guaranteed.

CZR LAUNCHPAD

Eligible CZR holders may receive access to selected token launches through CZR Launchpad, subject to separate project terms, eligibility requirements, and applicable law.

CZR WALLET

CZR Wallet may support CZR storage, transfers, rewards, approved decentralized trading routes, ecosystem campaigns, and additional Web3 integrations.

CZR CARD

The existing CZR Card may integrate CZR-denominated rewards, rebates, or cashback on eligible transactions. Final rates, limits, supported regions, and qualifying transactions will be announced separately.

ISSUER AND PRIMARY TRADING VENUE

- CZR is issued by CZR Fndn Ltd., a British Virgin Islands company responsible for the issuance and administration of the token and associated ecosystem programs.
- CZR Exchange is intended to serve as the initial and primary trading venue for CZR.
- CZR Fndn Ltd. and CZR Exchange are separate but affiliated legal entities. They may share a founder, beneficial owners, directors, officers, employees, consultants, or management personnel. This may create actual, potential, or perceived conflicts involving listings, fees, rewards, treasury activity, liquidity, market making, trading decisions, and ecosystem programs.
- Material decisions should remain subject to documented authorization, treasury controls, conflict procedures, market-integrity rules, and applicable law.

FINAL TOKEN ALLOCATION

ALLOCATION	PERCENTAGE	CZR AMOUNT
Founder, Financing, and Strategic Allocations	45.50%	455,000,000
Corporate Reserves	45.40%	454,000,000
Current Team and Advisors	7.10%	71,000,000
CZR Exchange Liquidity Operations	1.00%	10,000,000
Public Airdrop	1.00%	10,000,000
Total Maximum Supply	100.00%	1,000,000,000

The allocations total exactly **1,000,000,000 CZR**, equal to **100%** of maximum supply.

RESERVE CATEGORY	PERCENTAGE	CZR AMOUNT
Strategic Liquidity Reserve	14.00%	140,000,000
Staking and Rewards Reserve	12.50%	125,000,000
Marketing and Growth Reserve	9.50%	95,000,000
Treasury and Operations Reserve	8.00%	80,000,000
Future Team and Advisor Reserve	1.40%	14,000,000
TOTAL CORPORATE RESERVES	45.40%	454,000,000

Every sale, reward, grant, airdrop, incentive, partnership, or liquidity program must be funded from an existing disclosed allocation. No distribution program creates additional supply.

RELEASE SCHEDULE

CZR Exchange is intended to serve as the principal trading venue for CZR.

ALLOCATION	TOTAL CZR	LAUNCH RELEASE	CLIFF	RELEASE PERIOD	FREQUENCY
Founder, Financing, and Strategic Allocations	455,000,000	0 CZR	12 months	120 months following the cliff	Monthly
Corporate Reserves	454,000,000	0 CZR	3 months	18 months following the cliff	Monthly
Current Team and Advisors	71,000,000	0 CZR	12 months	36 months following the cliff	Monthly
CZR Exchange Liquidity Operations	10,000,000	Up to 5,000,000 CZR	None	Operational	As required
Public Airdrop	10,000,000	Up to 5,000,000 CZR, subject to eligibility, distribution, and transferability	Campaign-based	Program-specific	Program-specific

APPROXIMATE MONTHLY RELEASE ELIGIBILITY

ALLOCATION	APPROXIMATE MONTHLY AMOUNT
Founder, Financing, and Strategic Allocations after the 12-month cliff	3,791,667 CZR
Corporate Reserves after the 3-month cliff	25,222,222 CZR
Current Team and Advisors after the 12-month cliff	1,972,222 CZR

- Monthly amounts are approximate and may require a final-period adjustment for rounding
- A scheduled release establishes eligibility for use. It does not require a transfer, distribution, sale, or expenditure. Released tokens should only be treated as circulating when unrestricted, transferable, and reasonably available to the public.

CZR GENESIS AIRDROP

Total Public Airdrop Allocation:
10,000,000 CZR

- An initial 5,000,000 CZR is designated for the CZR Genesis Airdrop in connection with the October 1, 2026 launch.
- The remaining 5,000,000 CZR is reserved for future community programs.
- Eligibility criteria, campaign dates, geographic restrictions, qualification requirements, distribution procedures, and applicable terms will be published through official CZR channels.
- Airdrop tokens are not treated as circulating until distributed, transferable, and reasonably available to the market.

PUBLIC SALE

- No separate public-sale allocation is included in the final token allocation.
- Any future token sale, if conducted, would be sourced from an existing disclosed allocation and would not increase the maximum supply of **1,000,000,000 CZR**.
- Any such sale would be subject to separately published terms, eligibility requirements, geographic restrictions, and applicable law.

UNDERSTANDING CZR SUPPLY

MAXIMUM SUPPLY

The maximum number of CZR permitted by the smart contract is

1,000,000,000 CZR

TOTAL SUPPLY

- The current total supply is 1,000,000,000 CZR, less any tokens subsequently burned.
- While an authorized minter remains active, burned supply may be restored up to—but never above—the maximum cap.

CIRCULATING SUPPLY

Circulating supply generally consists of unrestricted CZR that is transferable and reasonably available to the public.

It May Exclude

- | | | |
|------------------------------|--|------------------------------------|
| ▪ Unvested tokens | ▪ Restricted founder or strategic holdings | ▪ Operational reserves |
| ▪ Locked distribution tokens | ▪ Unclaimed airdrop tokens | ▪ Tokens held in vesting contracts |
| ▪ Corporate Reserves | ▪ Undeployed liquidity inventory | ▪ Restricted treasury balances |

Up to 5,000,000 CZR may be deployed for initial liquidity operations. Genesis Airdrop tokens may increase circulating supply when distributed, transferable, and reasonably available to the market.

LIQUIDITY AND MARKET INTEGRITY

CZR may conduct liquidity operations internally and/or engage third-party market makers or liquidity providers where appropriate to support orderly trading.

LIQUIDITY AND MARKET-MAKING ACTIVITY CANNOT GUARANTEE

- A specific CZR price
- Continuous liquidity
- Minimum trading volume
- A particular bid-ask spread
- Protection against volatility
- The ability to sell at any particular time

These arrangements do not authorize price manipulation, wash trading, spoofing, deceptive orders, artificial volume, misleading activity, or other prohibited conduct.

SMART-CONTRACT SECURITY

CZR is deployed on Ethereum at:

`0xfeD863B6A995BE69c2BBc5089BcDa5414793CE24`

THE CONTRACT

- Has an immutable maximum-supply cap of 1,000,000,000 CZR
- Uses role-based access controls
- Supports pausing and unpausing
- Is not deployed as an upgradeable proxy
- Does not support wallet-specific blacklisting or freezing
- Does not generally permit administrators to seize tokens from holder wallets

THE CZR SMART CONTRACT UNDERWENT AN INDEPENDENT SECURITY ASSESSMENT BY CERTIK.

THE AUDIT IDENTIFIED

- No critical vulnerabilities
- No major vulnerabilities
- No medium vulnerabilities
- No minor vulnerabilities
- Two acknowledged centralization findings
- One acknowledged informational finding

- An audit does not guarantee that a contract is free from every vulnerability, defect, operational failure, economic risk, or future attack method.
- The full report should be published or linked only after any required CertiK authorization has been confirmed.
- Official security information will be published through <https://czrtoken.com>.

KEY RISKS

PRICE AND LIQUIDITY RISK: CZR may experience significant price volatility and limited liquidity. Holders may be unable to sell CZR at a desired price or time.

01

LAUNCH-SUPPLY RISK: Low initial circulation may contribute to volatility, price gaps, and sensitivity to relatively small orders.

02

VESTING AND RELEASE RISK: Future token releases may increase transferable or circulating supply and may affect market conditions.

03

CONCENTRATION RISK: A significant portion of maximum supply is allocated to founder, financing, strategic, and Corporate Reserve categories.

04

AFFILIATED-VENUE RISK: CZR will initially trade on an affiliated exchange, creating actual, potential, or perceived conflicts of interest.

05

MARKET-MAKER RISK: Liquidity arrangements may be interrupted, underperform, or fail and cannot guarantee orderly markets.

06

TECHNOLOGY AND CUSTODY RISK: Smart contracts, wallets, exchanges, custody systems, and third-party providers may experience vulnerabilities, failures, loss, or compromise.

07

REGULATORY RISK: Legal classification, product availability, and permitted utility may change across jurisdictions.

08

NO GUARANTEED RETURN: CZR does not guarantee price appreciation, liquidity, rewards, yield, or investment return. CZR may lose some or all of its value.

09

GEOGRAPHIC RESTRICTIONS

Trading CZR involves substantial risk.

01

CZR IS NOT OFFERED, SOLD, DISTRIBUTED, MARKETING, OR OTHERWISE MADE AVAILABLE BY CZR FNDN LTD. IN

- The United States
- The United Kingdom
- Member states of the European Union
- Sanctioned or otherwise prohibited jurisdictions
- Any jurisdiction where participation would violate applicable law

02

NO PERSON MAY EVADE APPLICABLE RESTRICTIONS THROUGH

- VPNs or proxies
- False location or residency information
- Nominee arrangements
- Another person or entity
- Misrepresentation of beneficial ownership
- Inaccurate eligibility information

The appearance of CZR on an independent blockchain application or unauthorized third-party platform does not mean CZR Fndn Ltd. has targeted, approved, or distributed CZR in a restricted jurisdiction

\$CZR PUBLIC ROADMAP

Users should rely only on official CZR sources.

- The first official DEX pool is targeted for late Q1 2027, subject to sufficient liquidity, healthy spreads, stable trading conditions, security review, and technical readiness.
- External CEX listings are subject to independent approval. No exchange will be identified until the relevant listing is approved and the exchange authorizes an announcement.
- Roadmap objectives are forward-looking and may change. All timelines, features, integrations, rewards, and listings remain subject to technical readiness, security review, applicable law, licensing, liquidity requirements, provider support, commercial agreements, exchange approval, and market conditions.

FULL CZR TOKEN WHITEPAPER

This Litepaper is a summary and does not contain every disclosure relevant to CZR.

THE COMPLETE WHITEPAPER PROVIDES EXPANDED INFORMATION REGARDING:

Token utility

Allocation and vesting

Supply and contract controls

Treasury operations

Liquidity and market-making arrangements

Related-party relationships

Conflicts of interest

Market-integrity policies

Governance and decision-making

Eligibility restrictions

Risk factors Supporting documentation

Legal and regulatory disclosures

The final public Whitepaper will be available through

<https://czrtoken.com>.
